fixing material

fitting of

Only units with this icon can be supplied with the wall mounting brackets.

Restrictions

Safety advise:

- Only possible on supporting walls
- Condition of wall has to be checked
- The max. loading capacity of the hardware system is 308.65 lb/cabinet (140kg) including its own weight
- We recommend high-quality fitting materials such as bolt or wall anchors, screen sleeves, injection mortar or long-shaft dowels

Not available for

- Not supporting walls (non-load-bearing wall)
- Below windows
- Next to room doors if distance is less than 5.91" (15cm)
- Minimum box height = 15.35t (39cm)
- Corner cabinets are not available with mounting brackets
